Right to revoke contracts valid for a term of one month or more:

You can revoke your contractual declaration within 14 days in writing (e.g., letter, fax, e-mail) without stating reasons. The period begins after you have received the insurance certificate, the terms of the contract including the Terms and Conditions of Insurance, the additional information pursuant to § 7 (1) and (2) of the Insurance Contracts Act (VVG) in conjunction with §§ 1 through 4 of the VVG Decree on Information Duties - each of these notifications in written form. In case of contracts in electronic commerce (§ 312i (1)(1) of the German Civil Code (BGB)), this period shall not commence prior to our performance of our duties pursuant to § 312i (1)(1) of the German Civil Code in conjunction with Article 246c of the Introductory Law to the German Civil Code (EGBGB).

The deadline for revocation is deemed met if the revocation is dispatched in good time. It must be sent to:

Consequences of revocation:

When revocation is effective, insurance cover ceases and we shall refund to you that portion of the premium allocated to the period after receipt of the revocation if you consented to insurance cover beginning prior to the end of the revocation period. We are entitled in this case to retain that portion of the premium that is allocated to the period until receipt of the revocation. This is a sum calculated proportionally by days. Amounts to be refunded will be remitted without undue delay, no later than 30 days after receipt of the revocation. If insurance cover does not commence prior to the end of the revocation period, then effective revocation means that payments received must be refunded and uses made thereof (e.g., interest) must be disbursed.

Special notes:

Your right of revocation lapses when the contract is completely performed both by you and also by us at your express request before you have exercised your right of revocation.

General Provisions on the MAWISTA Student Insurance Cover (abbreviated: VB AB 18 MS)

The regulations as stipulated under §§ 1 to 11 apply to all MAWISTA Student insurance products.

The Terms and Conditions (VB) printed below apply to the respective insurance. Insurance cover is provided if you have contractually agreed the insurance concerned.

§ 1 Who is eligible for insurance cover?

- The following are eligible for insurance cover:
 - Residents of Germany who are travelling abroad as language pupils, students, scholarship holders, candidates for a doctor's degree, guest researchers, practical trainees, or who are participating in „work- & holiday“-programs as well as accompanying members of his or her family.
 - Persons residing in Germany who are in possession of a residence permit for educational purposes, and the accompanying members of their family.
 - Persons in possession of another type of temporary residence permit for Germany.The requirement is that the person has not yet reached their 55th birthday on the date on which the insurance policy begins.
- Insurance cover applies to the person specifically named in the insurance policy documentation for their temporary period of residence in accordance with the agreed area of validity.

§ 2 What area of validity does the insurance apply to?

Insurance cover is valid for insured persons

- with Germany as home country for the temporary stay outside Germany. There is no insurance coverage for stays in Germany. In case the insured stay abroad is interrupted, the tariff Comfort provides insurance cover also in Germany for a period of up to 6 weeks per insurance year.
- with temporary resident status in Germany, for the temporary stay in Germany, in addition to periods that count as holiday or for training purposes in the EU as well as in Switzerland, Liechtenstein, Norway and Iceland. There is no insurance cover outside the above-stated countries.

§ 3 When does the insurance begin and end?

Insurance cover

- begins at the time stated in the insurance policy (start of insurance), however not before applying for insurance, not before crossing the border and not before the expiry of any waiting periods. Waiting periods are calculated from the commencement of insurance.
- ends at the agreed time, at the latest at the end of the insured stay in the agreed area of validity.
- can be extended for up to 48 months (= maximum tariff-based term of insurance) upon application before the expiry of the original term of contract insofar as the temporary period of residency continues and the insurance policyholder is willing and able to pay the premiums applicable at the time of the extension of cover. If the maximum tariff-based term of insurance of 48 months has been completed, a new contract can be applied for if the requirements stipulated in No. 4 below are met.
- For persons with temporary resident status in Germany, a maximum term of 60 months (= statutory limit of 60 months) may not be exceeded, taking into account any similar insurance policies with other insurers.

§ 4 What term of validity does the contract have? When is the premium payable?

- The insurance contract can be agreed for full months in each case and for a maximum term of 48 months.
- The insured person can give notice of termination of the insurance contract daily to the end of the month.
- The premium is due for the first time on commencement of the insurance contract and is payable each month in advance. The payment of the premium can be made by using one of the available payment methods (e.g. SEPA direct debit or credit card).

If the first premium has not been paid upon the occurrence of the insured event, the insurer shall not have a duty to indemnify, unless the insured person is not responsible for non-payment. If the insurer has been authorized to debit the premium from the selected payment method, the payment shall be deemed to have been made, if there is sufficient cover on the stated payment method at the time of debiting.
- If a contract is valid for a term of longer than one month, the renewal premium is payable on the 1st day of the new month respectively.

If the insurer has been authorized to debit the premium from the selected payment method, the payment shall be deemed to have been made, if there is sufficient cover on the stated payment method at the time of debiting.

If the renewal premium is not paid, the insurer may set a period for payment of at least two weeks in text form. If an insured event occurs after the expiry of the period and the insured person is still in arrears with the payment of the renewal premium, the insurer is exempted from its duty to indemnify. The insurer may terminate the contract instantly if the insured person is still in arrears with payment after the expiry of the period. If payment is made within one month after termination or after the expiry of the period set for payment, the effect of the termination ceases to apply and the contract enters into force again. However, no insurance cover is provided for insured events occurring after the expiry of the period set for payment.

§ 5 In which cases does insurance cover not apply?

No insurance cover is provided in the following cases:

- Damage or loss caused by strikes, nuclear energy, confiscation and other invention acts by public authority, as well as damage or loss in areas for which the German Federal Foreign Office has issued a travel warning. If an insured person is at such a location at the time when a travel warning is issued, insurance cover ends 14 days after the issuance of the travel warning; insurance cover continues in spite of the travel warning if the end of travel is delayed for reasons for which the insured person is not responsible.
- Damage or loss due to war or events similar to war; however, insurance cover does exist if the damage or loss occurs in the first 14 days after the beginning of the events; insurance cover continues if the end of travel is delayed for reasons for which the insured person is not responsible. This does not apply in case of stays in countries in whose territory war or civil war is already ongoing or where such an outbreak was foreseeable. Damage or loss through active participation in war, civil war or events similar to war are not covered by the insurance.
- Damage or losses intentionally caused by the insured person.

§ 6 What are the duties and obligations of the insured person in the event of a claim?

The insured person is obliged to:

- Minimise the loss as far as possible and avoid unnecessary costs.
- Report the loss to the insurer without delay.
- Describe the damaging event and the extent of damage and truthfully provide the insurer with any and all pertinent information. The insured person must furnish proof in the form of original bills and receipts, release physicians from their confidentiality obligation as necessary – including the physicians of the Assistance – and allow the insurer to reasonably examine the cause and amount of the asserted claim.

§ 7 When does AWP pay compensation?

As soon as the insurer has determined whether and to what extent it has an duty to indemnify, compensation is paid within two weeks.

§ 8 What applies if the insured person has claims for damages against third parties?

- In accordance with statutory regulations, claims for damages against third parties pass to the insurer up to the level of payment effected, provided that the insured person suffers no disadvantage thereby.
- The insured person is obliged to confirm the assignment of claims to this extent in writing upon request by the insurer.
- Any duties to indemnify arising under other insurance contracts and other social insurance institutions will have precedence over those of the insurer. The insurer will be deemed to have made advance payment, if the original bills are first presented to the insurer for payment.

§ 9 When does the insured person forfeit claims to insurance benefits due to a breach of duties and the statute of limitations?

- If a breach of duty is intentionally committed, the insurer is released from its duty to indemnify; in case of grossly negligent violation, AWP is entitled to reduce its payment in proportion to the degree of fault of the insured person.
- The insured person must furnish proof that no gross negligence was involved. Except in case of fraudulent intent, the insurer is obliged to indemnify if the insured person furnishes proof that the breach of duty is not the cause of either the occurrence or the determination or the scope of the insurer's duty to indemnify.
- The claim to an insurance benefit lapses in three years, calculated from the end of the year in which the claim occurred and the insured person obtained knowledge of the circumstances in order to assert the claim, or would have obtained knowledge without gross negligence.

§ 10 What form must be followed for submitted declarations of intent?

- Notices and declarations of intent from the insured person and the insurer are required to be in text form (e.g. letter, fax or e-mail).
- Insurance agents are authorised to accept such documents and forward them to the insurer.

§ 11 Which court in Germany is responsible for dealing with the assertion of claims based on the insurance contract and which law applies?

- At the option of the insured person, the courts of Munich or the place in Germany where the insured person has his or her permanent residence or habitual abode at the time the legal action is brought will have jurisdiction and venue.
- The laws of the Federal Republic of Germany apply insofar as they do not conflict with international law.

N.B.:

The Assistance is entrusted with the provision of services under the Emergency Call Insurance.

§ 1 What services does the insurer provide?

- The insurer provides assistance and support to the insured person during his or her stay in the agreed area of validity in the emergencies named below and pays the costs incurred up to the limits specified in each case. The insurer reserves the right to check cover. Services provided by the Assistance and declarations on its part to meet costs as well as any orders placed with service providers do not include any acknowledgement of the insurer's duty to indemnify under the insurance contract vis-à-vis the insured person as a basic principle.
- The insurer has entrusted the Assistance with the provision of services named below for the insured person as a 24-hour service.
- The insured person must contact the Assistance without delay to claim the services in an emergency.
- Insofar as the insured person cannot claim the reimbursement of amounts paid out from the insurer or from another payer, the insured person must repay the amounts to the insurer within one month of invoicing.

§ 2 What help does the Assistance provide in case of illness and accident?

- Outpatient treatment

The Assistance provides information on the possibilities of medical care and names a physician who speaks German or English as far as possible. However, the Assistance does not contact the physician.

- Inpatient treatment

In case of inpatient treatment of the insured person at a hospital, the Assistance provides the following services:

- Support

If required, the Assistance establishes contact through its contract physician to the respective family physician of the insured person and to the hospital physicians providing treatment. It ensures that information is passed between the physicians involved. Upon request, the Assistance informs relatives of the insured person.

- Patient visits

In case of the inpatient treatment of the insured person, the Assistance organises the travel for one person close to the insured person to the hospital where the insured person is staying and back to his or her place of residence in his or her home country. The insurer pays the costs of transport in case of a life-threatening illness of the insured person or if inpatient treatment lasts for longer than 14 days.

- Declaration to meet costs

In case of inpatient hospital treatment, the insurer will give the insured person a declaration that it will meet the costs up to an amount of € 15,000. This declaration does not involve any recognition that the insurer has a duty to indemnify. The insurer assumes settlement with the payer responsible in the name of the insured person.

As soon as medically advisable and appropriate, or if the duration of the hospital stay is expected to exceed 14 days in the opinion of the physician giving treatment, the Assistance will organise return transportation using medically adequate means of transport (including air ambulances) to the closest suitable hospital to the insured person's place of residence after prior consultation between the contract physician of the Assistance and the local physicians handling the case.

§ 3 Does the Assistance procure the necessary medications for the insured person?

In concert with the family physician of the insured person, the Assistance takes care of procuring medically prescribed medication and sending it to the insured person, if this is possible. The insured person must reimburse the costs of the medication to the Assistance within one month.

§ 4 What services does the Assistance provide in case of the death of the insured person?

If the insured person dies during his or her stay in the agreed area of validity, the Assistance will organise a funeral in the agreed area of validity or the repatriation of the deceased person's mortal remains to the place of the funeral in his or her home country as requested by the deceased person's relatives.

Terms & Conditions of the Accident Insurance

– tariff Comfort & Classic plus –
MAWISTA Student
(abbreviated: VB U 18 MS)

§ 1 What is insured? What is an accident?

- The insurer provides insurance benefits from the agreed sum insured if an accident during the insured stay in the agreed area of validity leads to the death or permanent disability of the insured person.
- An accident is deemed to have occurred:
 - If the insured person involuntarily suffers damage to his or her health as a result of an occurrence which has a sudden and external impact on his or her body.
 - If a joint is dislocated or muscles, tendons, ligaments or capsules are pulled or torn due to excessive exertion.

§ 2 Under which circumstances does insurance cover not apply?

The following is not included in the insurance cover:

- Accidents caused by mental disorders or impairments of consciousness, strokes, epileptic fits or cramps seizing the whole body as well as pathological disorders resulting from psychic reactions. This also applies if the condition is due to the influence of alcohol or drugs.
- Accidents suffered by the insured person whilst intentionally committing a criminal offence.
- Accidents suffered by the insured person as the pilot (also using aerial sports equipment) or a crew member of an aircraft.
- Impairments to health caused by curative measures and other interventions performed on the body of the insured person with his or her agreement, radiation, infections and poisoning, unless these were due to accidental causes.
- Bleeding from inner organs and cerebral haemorrhage, unless primarily due to an accident suffered during the insured stay in the agreed area of validity.
- Pathological disorders as a result of psychological reactions irrespective of the cause.

§ 3 What benefits does the insurer pay in the event of the death of the insured person?

Should the accident lead to the death of the insured person within one year, the insurer will pay € 10,000 to the heirs.

§ 4 What benefits does the insurer pay in the event of the permanent disability of the insured person?

Should the accident result in the permanent impairment of the insured person's physical or mental abilities (disability), the insured person is entitled to claim benefits from the sum insured for disability (taking into account the progression pursuant to No. 2 (e)) to a maximum amount of € 140,000.

- Disability must have occurred within one year after the accident and must be determined by a physician and the claim asserted within a further three months.
- The disability benefits payable depend on the degree of disability. Notwithstanding any evidence substantiating a higher or lower degree of disability, the following fixed scales of disability are applicable:
 - Loss or incapacity of:

an arm	70 %
a hand	55 %
a thumb	20 %
a finger	10 %
a leg	70 %
a foot	40 %
a toe	5 %
an eye	50 %
hearing in one ear	30 %
sense of smell or taste	10 %
 - In case of partial loss or functional impairment of one of these parts of the body or sensory organs, the appropriate proportion will be determined on the basis of the respective percentage as specified under a) above.
 - Should the accident affect parts of the body or sensory organs, the loss or functional incapacity of which is not specified under a) or b) above, the degree of disability will be measured by the extent to which the insured person's normal physical or mental capacity is impaired from a purely medical perspective.
 - Should the accident result in the impairment of several physical or mental functions, the degrees of disability specified under 2 a) to c) will be added together. Such addition will, however, not total more than 100% disability.
- The disability payment under No. 2 a) shall be expanded as follows:

In case of a degree of disability in excess of 25%, the indemnity payment shall increase in accordance with the following table:

from %	to %	from %	to %	from %	to %	from %	to %	from %	to %

40	70	55	125	70	200	85	275	100	350

- Should the accident affect a physical or mental function already subject to lasting impairment before the accident, an appropriate deduction will be made to the extent of such previous disability. Such disability will be measured in accordance with No. 2 above.
- If the insured person should die as a result of the accident within one year after its occurrence, there will be no claim to disability benefits.
- If the insured person should die for reasons unrelated to the accident within one year of the accident or should he or she die more than one year after the accident and a claim for disability benefits had already arisen, benefits will be paid to the extent of the degree of disability that would have been reasonably expected based on the last medical examination conducted.

§ 5 What limitations on benefits are to be noted?

Should illness or ailments have contributed to an impairment of health or the consequences thereof caused by the accident, the benefits payable will be reduced in proportion to the contributing factor of such illness or ailments, provided such factor is at least 25%.

§ 6 What other benefits does the insurer provide after an accident?

- Rescue costs**
The costs of search, rescue and recovery measures are covered up to € 5,000 if the insured person has to be rescued or recovered after an accident or if the insured person is missing and it is feared that something has happened to him or her.
- Health spa allowance**
After an accident-related hospital stay of at least 21 days, the insurer pays for medically necessary health spa or rehabilitation measures, which are connected to the accident event and documented by a certificate from a specialist. The health spa or rehabilitation measure must be started within six months of completion of hospital treatment and last for no less than 21 days and no more than 28 days.
The insurance covers the costs of medical treatment, medicine and remedies (such as baths, massages, and physiotherapy) as well as expenditures for spa tax, accommodations, and meals up to a maximum of € 1,500.
The insurer reimburses any remaining costs after prior payment by a statutory or private payor or service provider up to a maximum of € 1,500 per insured person. Costs are only reimbursed once for each accident.

§ 7 What action is to be taken after an accident has occurred (obligations)?

The insured person is obliged to do the following:

- Undergo a medical examination by physicians appointed by the insurer. The necessary costs of such examination and any loss of income incurred thereby will be borne by the insurer.
- Release the physician giving treatment or carrying out examinations as well as other insurers and authorities from their professional confidentiality obligation.

§ 8 When does the insurer pay permanent disability benefits?

- As soon as the insurer has received the documents that are to be submitted by the insured person for the purpose of documenting the circumstances and consequences of the accident and documenting the completion of the curative treatment necessary for determining the degree of disability, the insurer is obliged to declare within three months whether and to what extent it recognises a claim.
- If the insurer recognises a claim, benefits will be paid within a period of two weeks.
- Within one year after the accident, disability benefits may be claimed before completion of curative treatment only up to the level of the sum payable in the event of death.
- The insured person and the insurer are entitled to have the degree of disability determined each year by a physician for a period not exceeding three years after the occurrence of the accident. To exercise this right, the insurer must state this when submitting the declaration in accordance with No. 1; the insured person must exercise his or her right within one month after receipt of such declaration. Should the final assessment of disability result in higher disability benefits than the insurer had already paid, this extra amount will be subject to payment at 5% annual interest.

Terms and Conditions of the Liability Insurance

– tariff Comfort & Classic plus –
MAWISTA Student
(abbreviated: VB H 18 MS)

§ 1 What risk does the insurer assume?

The insurer provides insurance cover against everyday liability risks if a third party asserts claims for damages against the insured person during his or her stay in the area of validity due to a damaging event that occurred during travel on the grounds of statutory liability provisions as defined under private law. Damaging events are defined as death, injury or impairment to health (personal injury) or damage to or destruction of property (damage to property).

§ 2 How does the insurer protect the insured person against liability claims? To what extent does it pay indemnity?

- The insurer examines liability claims with regard to their validity, wards off unjustified claims and reimburses the compensation owed by the insured person. The insurer reimburses the compensation if it recognises its duty to indemnify or approves admission of liability on the part of the insured person. The insurer also pays compensation if it effects or approves a settlement or where decreed by a court ruling.
- If the injured party or his or her legal successor asserts a liability claim in court, the insurer will conduct the legal dispute at its own expense on behalf of the insured person.
- If the insurer requests or approves the appointment of a defence counsel in criminal proceedings against the insured person arising from an insured damaging event, the insurer will pay the costs of the defence counsel.
- If the insurer fails to settle a liability claim by admission, satisfaction or settlement on account of the resistance of the insured person, the insurer shall not be required to pay any additional expenses incurred for the main issue, interest and the costs.
- The sums insured as stipulated in § 1 are the maximum limit of benefits payable by the insurer per insured event; they also constitute the aggregate maximum indemnity paid for all insured events in an insurance year.

§ 3 What risks are not insured?

Insurance cover does not include the following:

- Liability claims**
 - insofar as these exceed the scope of the insured person's statutory liability as a result of contractual or other commitments;
 - among and between insured persons and insured persons and their relatives (including life partners);
 - due to transmission of illness by the insured person;
 - due to damage caused by occupational activities.

2. Liability claims against the insured person

- in connection with hunting activities;
- due to damage caused to third-party property rented by or on loan to the insured person or obtained through unlawful interference or in the insured person's custody. However, liability arising from damage to rooms and buildings during the stay in the agreed area of validity, in particular damage to rented holiday apartments and hotel rooms or the accommodation but not damage to furniture; insurance cover is not provided for liability claims based on wear and tear or excessive use;
- as the owner, possessor, keeper or driver of a motor vehicle, aircraft or motor-driven watercraft due to damage caused by the use of such a vehicle.
- as the owner or keeper of animals;
- for hazards directly related to the deliberate and illegal commission of a punishable offence.

§ 4 What are the duties and obligations of the insured person after the occurrence of damage or loss?

An insured event is deemed to be a damaging event that could entail liability claims against the insured person.

- Each and every insured event must be reported in text form (e.g. letter, fax, e-mail) to the insurer immediately.
- The insured person must also immediately inform the insurer of any initiation of a preliminary investigation or issuance of an order of summary punishment or payment order, even if the insurer already knows about the insured event.
- If a claim for compensation has been asserted against the insured person, he or she must notify the insurer thereof within one week after the claim is filed.
- The insured person must also notify the insurer when a claim has been asserted that involves judicial or state assistance.
- The insured person is obliged to take all possible steps to minimise the loss while complying with the insurer's instructions and to take every action necessary or useful to clarify the case of loss. The insured person must provide a detailed and truthful loss report, supply information on all circumstances connected with the damaging event and submit the corresponding documents.
- If the liability claim is taken to court, the insured person shall allow the insurer to conduct the proceedings, grant the legal counsel appointed and nominated by the insurer full power of attorney to act on his or her behalf and submit all declarations deemed necessary by the legal counsel or the insurer. Without awaiting instructions from the insurer, the insured person must raise objections within the specified period or seek the necessary legal remedies against orders for payment of damages decreed by the courts or by the state.
- If the insured person obtains the right to demand the cancellation or reduction of a payable annuity as a consequence of altered circumstances, the insured person is obliged to allow the insurer to exercise such right on his or her behalf. The provisions of Nos. 3 to 5 apply accordingly.
- The insurer is considered to have full authority to submit all declarations on behalf of the insured person that it deems suitable to settle or ward off a claim.

§ 5 What deductible does the insured person pay?

There is no deductible.

Declarations and information on data processing

I. Consent to the collection and use of health data and declaration of release from secrecy.

The declarations of consent and of release from secrecy printed under I. were prepared as coordinated between the Gesamtverband der deutschen Versicherungswirtschaft e.V. (GDV) and data protection authorities.

The Insurance Contract Act, the Federal Data Protection Act and other data protection provisions do not include an adequate legal basis for the collection, processing and use of health data by the insurer. For this reason we need your consent as required by data protection laws. In the event of a claim, we may require your release from secrecy in order to obtain your health data from parties subject to secrecy (e.g. physicians).

Furthermore, we require your release from secrecy in order to disclose your health data or other data protected under § 203 of the German Criminal Code, e.g. the fact that there is a contract with you, your customer number or other identification data, to other parties, e.g. assistance, logistics or IT service providers.

The following declarations of consent are indispensable for the implementation or termination of your insurance contract (processing of your claim). Should you not submit these, it will not usually be possible to enter into any contract.

The declarations relate to the way we handle your health data and other data subject to secrecy (under 1.), in connection with requesting these from third parties (under 2.) and when disclosing them to parties external to the insurer (under 3.)

The declarations also apply to persons legally represented by you who are included in the insurance, e.g. to your children, if they do not recognise the significance of this consent and thus cannot submit their own declarations.

1. Consent to the collection, saving and use of your health data

I consent to AWP P&C S.A. collecting, saving and using the health data notified by me in the future, provided that this is required to implement or terminate the insurance contract.

2. Request of health data from third parties to verify the duty to indemnify

To check our duty to indemnify it may be necessary for us to check information on your state of health which you provided to substantiate claims or which is shown in the documents submitted (e.g. bills, prescriptions, expert opinions) or notifications, e.g. by a physician or other member of the health profession.

This verification is carried out only to the extent necessary. To do so, we require your consent including a release from secrecy for us and for these parties if, in the course of these requests, health data or other information subject to secrecy are disclosed.

We will inform you in each individual case of the persons or establishments that are required to provide information and for what purpose. You can then decide in each case whether you consent to the collection and use of your health data by the insurer, release the persons or establishments named and their employees from secrecy and consent to the transfer of your health data to the insurer, or whether you will provide the required documents yourself.

3. Disclosure of your health data and other data subject to secrecy to parties outside AWP P&C S.A.

We contractually oblige the parties named below to observe provisions on data protection and data security.

3.1 Disclosure of data for medical assessment

To check our duty to indemnify, it may be necessary to call in medical experts. We require your consent and release from secrecy for this purpose if your health data and other data subject to secrecy are transferred in this connection. You will be informed of each transfer of data.

I hereby consent and agree that AWP P&C S.A. may transmit my health data to medical experts if this is necessary for reviewing the obligation to pay benefits in my insurance claim and that the health data are used there for the proper purpose and the results are sent back to AWP. I release the persons working for AWP P&C S.A. and the experts from their nondisclosure duty with respect to the health data and other data protected under StGB (German Criminal Code) § 203.

3.2 Transfer of tasks to other parties (business enterprises or persons)

We do not perform in part certain tasks in the course of which your health data might be collected, processed and used. We have therefore transferred these tasks to other companies. If your data subject to secrecy are disclosed in the course of this, we require your release from secrecy for us and, where necessary, for other parties.

We carry out a constantly updated list of the parties and categories of parties that collect, process or use data subject to secrecy on our behalf as agreed. This list shows the tasks which have been transferred to the individual parties. The currently valid list is enclosed directly with the declarations.¹⁾ An up-to-date list can also be viewed on the Internet under www.allianz-reiseversicherung.de/datenverarbeitung or requested from us (AWP P&C S.A., Bahnhofstraße 16, D - 85609 Aschheim (near Munich), Phone +49.89.62424-460, service@allianz-assistance.de). We need your consent for the disclosure of your health data and for use of such data by the parties listed at these points.

I consent to AWP P&C S.A. transferring my health data to the parties named in the list mentioned above and to the collection, processing and use of my health data by those parties for the purposes stated to the same extent as AWP P&C S.A. would be allowed to do. Insofar as necessary, I release the employees of AWP P&C S.A. as well as those of the parties entrusted with this task from secrecy for the disclosure of health data and other data protected under § 203 of the German Criminal Code.

3.3 Disclosure of data to reinsurers

To ensure that your claims are satisfied, AWP P&C S.A. can conclude contracts with reinsurers that partially or completely assume the risk insured by us. In some cases the reinsurers use other reinsurers for this purpose to whom they also transfer your data. To allow the reinsurer to check whether AWP P&C S.A. has correctly assessed a claim, AWP P&C S.A. might be required to present your claim documents to the reinsurer.

To settle insurance claims, data on your existing contracts might also be disclosed to reinsurers.

As far as possible, anonymised and pseudoanonymised data are used for the purposes named above, but personal health data might also be used.

Reinsurers use your personal data only for the purposes named above. We will inform you of the transfer of your health data to reinsurers.

I consent to AWP P&C S.A. transferring my health data to reinsurers, provided that this is necessary for the assertion of legal claims for reimbursement in my insurance case; that the health data is used appropriately and that the results are relayed back to AWP. Insofar as is necessary, I release from their confidentiality obligations any persons acting on behalf of AWP P&C S.A. and consultants, with respect to the health data and further pursuant to data protected under Section 203 of the StGB (German Criminal Code).

Statements by the insured person(s) or the legal representative of the person(s) to be insured:

I hereby make the declarations on data processing submitted by the applicant or the person interested in insurance on my own behalf or on behalf of the person(s) to be insured

II. Disclosure of data to other insurers

Pursuant to the Insurance Contract Act the insured person must notify the insurer of all important circumstances for claim settlement in case of damage. This can also include previous illnesses and claims or notifications about other similar insurance. In certain cases, such as double insurance, legal subrogation and where there are cost sharing agreements, personal data must be exchanged between insurers. Also to prevent any misuse of insurance it may be necessary to request information from other insurers or to provide suitable information upon request. In the process, the data of the person affected are disclosed, such as his or her name and address, type of insurance cover and the risk or information on the claim (type of damage, amount of claim, date of damage).
